Keith: M/H of NIE 7-85.

1. Inasmuch as the NIE came out in February, let's finish up the M/H in August.

2. I personally like the idea of Kate cutting her teeth on this wide-ranging exercise, with you looking over her shoulder. She will also be doing a lot simultaneously for Fritz, at least initially. That's OK, though we'll want to be sure she's not just reading cables for him. She'll also be getting a lot of other ad hoc chores -- from me, you, and others. And, I'll talk with Fritz about signing her up for a substantial Estimate of some kind for him.

3. On the M/H, I'll be receptive to your ideas for format and procedure. I would think it should be short, Key Judgments in style and length, and confined to principal changes (and short explanations therefor).

4. Hmm?
